

INTERNATIONAL CAMPUS
ZHEJIANG UNIVERSITY
浙江大学国际联合学院

User Guide

1. Turn on the equipment

Plug in - turn on the "Power" button at the back of the lower right corner - if the screen is not turned on, click the "Power" button at the bottom of the screen

2. Press the "Home" button to select the usages

Wired projector: select HDMI3 on the screen to connect by the HDMI convert line to the computer. Using other convert lines, you can find it in the box on the wall.

Built-in HD: select '内置高清' built-in HD on the screen, input personal INTL ID with wireless keyboard and mouse, and use personal Z disk or Onedrive to achieve sharing information. Open the Drawview software on the desktop, enter the electronic whiteboard mode, and you can write freely on the screen with the stylus.

3. Shut down the equipment

Turn off the power supply at the back of the lower right corner
